JCW:

On the subject of better distribution of GOOD magazines out here, the attached file should prove interesting. I think we can stir up some practical cooperation and activity useful to both India and the USA and to world understanding. This is just one of many projects we might help if we had an office here; not with money, but with professional know-how, India know-how, contacts, publicity, etc. etc. Likewise, their already-established contacts in various countries could help projects we might wish to initiate ourselves.

Think about it and we'll discuss it on my return to Mysore.

Julie
